

Description

The Handling Bar (Part No 8537) is designed to offer a secure and efficient 2-person lifting solution tailored for the SAFPAK® 2767 package range.

The Handling Bar has a self-aligning central plate, therefore ensuring this ergonomic tool enables a precise and hassle-free lifting experience. A lightweight welded aluminium body combines durability with ease of use, providing a reliable and user-friendly solution for the safe and effective handling of SAFPAK® 2767 packages.
