

Description

The Torque Tool (Part No 8834) is designed for the precise tightening and untightening of the SAFKEG® 4086 Containment Vessel (CV) screw-ring. Engineered with a built-in torque multiplier unit, this tool is purpose-built to achieve the necessary torque for securely sealing the CV lid.

The single-unit solution provides the safe and repeatable tightening of CV closure lids by a single operator. The specialised design ensures efficient and reliable performance in securing the SAFKEG® 4086 CV.

A ½” drive torque wrench is required to operate the assembly.

Physical Data

Component	Torque Tool Part No 8834
Dimensions	
Width (mm)	530
Height (mm)	120
Depth (mm)	150
Weights	
Weight (kg)	21
Output Tightening Torque (Nm)	3500
